In January we held our Monte Carlo Casino event and it was a huge success. Every month we will be doing a special program with a different theme to make our programs more engaging.

We have identified that many of our programs that we do target the independent residents. This leaves many other residents who need more support under stimulated with activities. We want to promote resident's independence and therefore residents are welcome to visit their co-resident friends on other areas any time throughout the day, or meet in the lobby for a visit. We have booked an art class and dance class to target the independent residents so that the Recreation Team can focus on providing programs to those residents that have responsive expressions or are at risk for social isolation, low program participation, low engagement/stimulation.

We are excited to try new programs and make changes to better the lives of the residents. We understand change can be difficult, but we are hoping to be able to provide more programs to all our 192 residents.

As we continue to find a balance with our programs, please be aware that residents have the right to choose not to attend programs, and also not every program will be meant for them as we have 192 individuals that we need to focus on. Our next special events will be our Sweethearts' High Tea on February 14 and or Black Tie Dinner event on February 26 (open for regular texture and families).

Lastly, in February we will be saying goodbye to Regina our Nursing Administrative Assistant. Regina is joining the Niagara Region home as the business office manager. Happy trails to you (Regina) until we meet again.
